Fall 2014

Rain or Shine, Wilson Is Here to Serve

At Wilson & Company, We Build Client Satisfaction® by consistently meeting our clients' needs and exceeding their expectations. Recently, the Wilson & Company team had the privilege to work with the United States Postal Service in Vero Beach, Florida. Project manager Jaime Douglas has exceeded the expectations of USPS from day one.

"I always strive to put the client's needs before mine and make sure to solve any concerns with a smile on my face," Douglas says. Like the Postal Service, Douglas says, "Rain or shine, we will get the job done." Renovations to the 27,000-square-foot USPS annex in Vero Beach will be completed this summer.

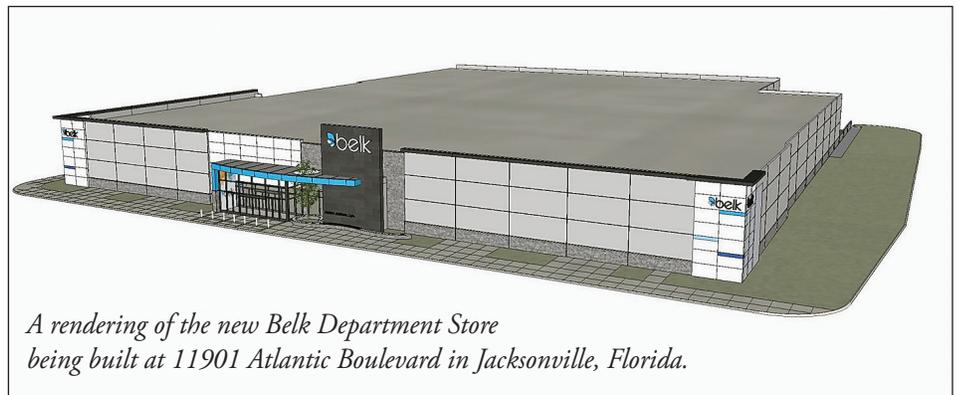

This team mindset is critical to Wilson & Company's success, project after project, year after year. As the company celebrates its 20th anniversary in 2014, we are thankful for our team members, repeat clients and dedicated subcontractors.

In June, Spring Meadows Seventh-day Adventist Church held services at its brand new sanctuary built by Wilson & Company in Stuart, Florida. Greg Fowlkes and Jaime Douglas led this project team, coordinating schedules and subcontractors

resulting in a beautiful new facility.

Wilson & Company also began construction in July for a new 96,022-square-foot Belk Department Store in Jacksonville. Project manager Chris Lewis is leading this team effort, along with superintendent Broc Wagner.

"I am honored to take on such an exciting project for Belk," says Lewis.

Another exciting project is the recently-begun new office facility for Trustco Bank in Longwood, Florida. The building will house trainees for Trustco Bank's locations throughout Central Florida. In June, top executives flew in from New York to celebrate the project's

groundbreaking with the Wilson & Company team.

Colin Archibald is the onsite superintendent and Nick Zirillo is managing the Trustco Bank project and is an eager teammate in the construction process.

"Trustco is an outstanding company to get the opportunity to work for and I'm excited to show them the Wilson way," Zirillo says. "It isn't every day that you get to work for such a prestigious bank."

The facility will be completed this fall. Colin and Nick recently completed a Trustco branch bank in Stuart, Florida.

Exciting Changes at Wilson & Company

Wilson & Company is dedicated to the construction industry and to training the best team members for our clients' projects. We are proud to announce our new internship program, created with the goal of identifying promising future construction stars and helping them launch successful careers in the industry.

Parks Wilson, CEO and founder, is especially excited about this program.

"I have been very blessed with my career in the construction industry and have acquired many valuable skills," he says. "I want to be able to pass this knowledge on to the young minds of construction industry."

Wilson & Company began with just one intern, but the

program has now grown to include three. Our interns work with experienced team members to learn the necessary skills in many different areas of the construction process, including project management, field training exercises and estimating.

Our team extends a warm welcome to its newest interns: Jennings Johnson, Stephanie Ellis and Rick Salmon. Stephanie and Rick are excited to gain this experience; they both expect to graduate from Seminole State College by the end of the year with bachelors degrees in Construction Science with a focus in Project Management. Jennings began his construction studies last fall.

From all of us at Wilson & Company, welcome to the team, Jennings, Stephanie and Rick!
