

*Professional Development through Financial Management:*

## Wilson & Company Announces SmartDollar Initiative

**A**t Wilson & Company, we believe prudent money management is an essential skill for long-term career success. We also believe that our best investment is in our people.

Consistent with this philosophy, early this fall Wilson & Company began offering Dave Ramsey’s SmartDollar program to our employees and their families as a complimentary benefit. The SmartDollar program provides resources to help

participants change their behavior toward money and use their income to save and invest instead of paying consumer debt. It is a holistic approach to retirement education, with the goal of teaching sound financial principles so participants can more effectively manage their finances and plan for a comfortable retirement.

We are proud of our history of continued success, both in the construction industry and in the personal and professional development of Wilson & Company team members. This program should continue to support our employees by giving them the necessary tools to manage their finances by making budgets, setting goals, tracking progress, and celebrating success.

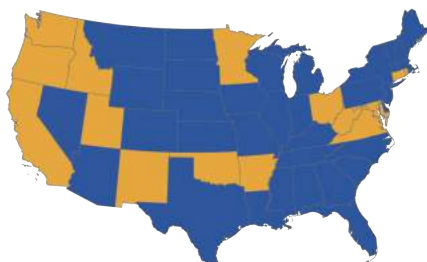

Wilson & Company has invested more than \$5,000 in prizes to incentivize team members to

take advantage of this SmartDollar program—especially the program’s seven baby steps toward financial health. As our team members participate in the program together, we hope and expect not only to learn more about personal financial management, but also to generate ideas for business management and to promote our philosophy of responsible stewardship of company resources.

We’re excited to see where this program takes us as individuals, and as a company! Check back in our next newsletter for updates on the SmartDollar program as well as success stories firsthand from Wilson & Company team members!

## An Exercise in Team Building!

This fall, the Wilson & Company team gathered at Canterbury Retreat to participate in a ropes course from Ties That Bind, Inc.

Our activities focused on leadership, trust, communication, problem-solving, teamwork, cooperation, decision making, motivation and conflict resolution.

“Team Peanut Butter” and “Team Jelly” worked together to accomplish various team building tasks! And, we even had a caricaturist capture our personalities while we enjoyed lunch together!

## Holiday Reflections and Wishes from Wilson & Company

**A**s we walk through the holiday season this year, it does the soul good to turn thoughts toward home. We spend time with our families. We hold close to tradition. We stand together as we reflect, looking back on our year's successes and failures. We enthusiastically await the freshness of a new beginning come January 1st.

Looking back at 2016, we can say that we have officially survived another presidential election year! Let's collectively hope our leaders will come together to find long-term solutions to critical issues. At Wilson & Company, we sincerely believe our

future is bright and that we live in a great country.

During this special and joyous time of year, we are grateful for so many things: the opportunity to work with an amazing team of professionals, our many business partners, and our valued clients who have made our success possible.

From all of the Wilson & Company team, we extend our heartfelt desire for you and all of your coworkers, family, and friends to have a wonderful holiday season filled with joy and meaning. We wish you abundance, happiness, and peace in a year filled with hope. Cheers to 2017!
